You've heard the expression "the squeaky wheel gets the grease"? In tough economic times, there are lots of squeaky wheels and loud voices asking for your help. But what about the softest voices?

For 175 years, Children's Friend has been listening to the voices of the children. Please remember Rhode Island's youngest and most vulnerable children when you receive your United Way pledge form this year.

Help us protect their tiny voices. On your 2010 United Way pledge form, please list Children's Friend, 153 Summer Street, Providence, RI as your preferred charity.

Thank you for your support.
